Initial Settings for E-mail and EZweb

To use the E-mail and EZweb services, you need to subscribe to the EZweb service. If you did not subscribe it when you purchased your phone, please contact au Customer Service Center or au shop for further information. Make sure that you set the initial settings before using the E-mail and Ezweb services for the first time. Although the initial settings automatically determine your E-mail address, you can change it as you like.

Press , or → Press → When you complete the initial settings, press .

Using E-mail

E-mail is a service through the Internet that allows you to exchange mails with other mobile phones or personal computers that support E-mail. You can send and receive a message of up to 5000 double-width (or 10000 single-width) characters.
